HEY!

YEAH, YOU!!

HEY YOU!

TIPS FOR BOOKING DAYCARE:

- Book in advance & adjust dates later (but don't forget your days!! We can always send you a new list of reserved days, just ask!)
- Want multiple days? Save your self the form-filling-out time, just send an email: info@camphappyhound.com!
- Tuesday & Friday (any day) regular? Book every "Tuesday & Friday" for multiple weeks/all of your package days; adjust later if needed! (send an email!)
- Don't always rely on your confirmation emails for remaining package days. Days are not taken from your account until check OUT.. ie. If you book 5 days at a time, your confirmation's total days will remain the same! We can always update you! & We do our best to let you know when you get down to your last few.

LOOK FOR AND CHECK EVERY CONFIRMATION EMAIL! If your confirmation email shows the wrong date, you must let us know; reply to said confirmation email or call Camp. Confirmation emails are sent to the email address registered with your pup on their Evaluation Day.

Cancellations/Rescheduling is permitted until 5pm the previous day. Changes made after 5pm the previous day (or day of said reservation), will result in the loss of said pre-paid/package day. *Exceptions based on reasoning.*

Any **OUT-OF-DATE SHOTS** will show in your confirmation emails (if none show, your pet is UTD). If your pet has a shot out, we **MUST** have proof of vaccination **BEFORE** we can accept your pup for daycare.

WOUND CARE

- Place pressure with gauze or a clean cloth to stop bleeding.
- If there is debris, flush the wound with saline or clean water.
- For deep wounds, or severe bleeding, keep pressure until you can get your pet to a veterinarian.

SEIZURES

- The most important thing to do is to protect your pet from self-injury.
- DO NOT place your fingers or any object in your pet's mouth.
- Clear the area around your pet to help prevent injury during the seizure.
- Do NOT attempt to restrain your pet, but you can place a hand on their body.
- When the seizure has stopped, contact your veterinarian for further instructions.
- If the seizure does not stop within 3 to 5 minutes or if your pet comes out of the seizure and goes into another one within an hour, transport the dog immediately to the veterinarian.

CHOKING

- If choking, hold the upper jaw open with one hand, and look for a foreign object.
- Unless you can clearly see and grasp the obstruction, do not put your fingers into your dog's mouth or throat.
- Lift smaller dogs' legs into the air so gravity can help dislodge the obstruction.
- If you can't remove the foreign object, using the heel of your hand, deliver 4-5 sharp blows on the dog between the shoulder blades.

POISON

- If you suspect poisoning, seek care immediately.
- If you cannot get to the vet immediately, are waiting for a ride, or are stranded, you can call either of these 24-hour emergency hotlines:
